

Zerto protects all your customers' data. All the time.

Zerto, a Hewlett Packard Enterprise company

Zerto a Hewlett Packard Enterprise company **Zerto - HPE's ultimate continuous data protection solution**

It's not a matter of if - but when. Ransomware attacks are on the rise, and businesses today need to be ready, or all their data and critical applications could be lost... in an instant.

To protect your customers from this dire scenario, introduce them to **Zerto, a Hewlett Packard Enterprise company**. Zerto is a simple, software-only solution that uses continuous data protection at scale to solve for ransomware resilience, disaster recovery, and multi-cloud mobility for on-premises or cloud environments.

The Zerto Advantage

Full air gap: Complete protection with an isolated, disconnected vault with no access to production infrastructure

Zero-trust architecture: Security-hardened and expressly designed to protect and recover from the worst cyber threats

Real-time encryption detection: Detects in seconds for the earliest warning alarm of an attack's encryption phase

Rapid recovery: Orchestration and automation from Zerto combined with high-performance hardware from HPE that delivers fast RTOs to mitigate ransomware

Zerto Cyber Resilience Vault

The Zerto Cyber Resilience Vault is based on HPE Alletra, HPE ProLiant, HPE Aruba Networking, and Zerto, and dramatically reduces data loss and downtime after an attack. The solution uses a decentralized zero trust architecture to achieve rapid air-gapped recovery. The vault is designed to mitigate even the most devastating ransomware attacks so you can recover from an attack to a point just seconds before the attack.

Supported platforms

Zerto supports the following platforms:

- ✓ VMware vSphere
- ✓ VMware Cloud Director
- ✓ Google Cloud VMware Engine
- ✓ IBM Cloud for VMware Solutions
- ✓ Microsoft Azure VMware Solution
- ✓ Oracle Cloud VMware Solution
- ✓ Amazon Web Services
- ✓ Microsoft Azure
- ✓ Red Hat OpenShift
- ✓ IBM Cloud Kubernetes Service
- ✓ Microsoft Azure Kubernetes Service

Zerto Features & Benefits

Here are some key features and benefits that make Zerto stand out from the competition:

Vendor-Agnostic: Works seamlessly across different storage environments and infrastructures due to Zerto being cross-platform compatible.

Reduced downtime and data loss: Minimizes any direct or indirect loss of revenue after an attack due to Zerto's flexible architecture

Compliance: Aids in compliance with some of the most common regulations including HIPAA, GDPR, SOX, FISMA/ NIST SP 800-34, and more

Orchestration and automation: Simplifies the recovery process by automating failover and failback operations

Workload mobility: Enables businesses to move workloads and data between different environments and is done with minimal disruption and zero data loss

Simplified management: Utilizes a user-friendly interface and centralized management console, making monitoring and managing a data protection strategy easy

Granular recovery: Recovers individual files or specific application data without having to restore entire systems

Comprehensive reporting: Provides detailed reports and insights into a business's protection status, recovery times, and other critical metrics

Zerto is available on the HPE GreenLake edge-to-cloud platform as the service named **HPE GreenLake for Disaster Recovery**.

Arrow is a catalyst for your success!

At Arrow, we're committed to you and your customers' success. So be sure to take advantage of our powerful offerings as you build your business with Zerto.

- **Sales assistance:** Our sales professionals can help you effectively position and sell HPE Storage Solutions, backed by the expertise of Arrow professionals.
- **Product support:** Arrow's HPE product specialists and solution architects are always available to support you in developing storage solutions for your customers.
- **Training:** Arrow's tailor-made training programs ensure you have an in-depth understanding of HPE Storage products, enabling you to present solutions confidently to your customers.
- **Arrow Solutions Lab:** Take advantage of our dynamic hybrid cloud infrastructure, where you can design, build, demonstrate, and integrate IT solutions for your customers virtually or on-site. The Arrow Solutions Lab is a reliable and secure space in the Atlanta metropolitan area created to drive digital transformation and build customer confidence.
- **Financing:** We offer financing through [Arrow Capital Solutions](#) to support your customers with flexible payment choices to help them acquire the technologies they need.

About Zerto

Zerto, a Hewlett Packard Enterprise company, empowers customers to run an always-on business by simplifying the protection, recover, and mobility of on-premises and cloud applications. Zerto eliminates the risks and complexity of modernization and cloud adoption across private, public, and hybrid deployments. The simple, software-only solution uses continuous data protection at scale to solve for ransomware resilience, disaster recovery, and multi-cloud mobility. Zerto is trusted by over 9,500 customers globally and is powering offerings for Amazon, Google, IBM, Microsoft, and Oracle and more than 350 managed service providers.
